ELO Analytics
Digital innovation made for you

The benefits

Custom views
- Easy-to-read graphic representation of data
- Fast data analysis for every use case
- Create custom dashboards

Meaningful visualizations
- Visualize data with the help of diagrams, tag clouds, data tables, or metrics
- Easy data aggregation
- Ability to interpret statistics for detailed analysis
- Control over your custom views

Custom dashboards
- Combine visualizations and statistical data
- Filter options to narrow down the data shown
- Real-time data thanks to the automatic dashboard refresh
- High performance — have the data you need in a matter of seconds

Your business metrics in one place with ELO Analytics for information management

ELO Analytics allows you to evaluate and understand your company’s data all in one place. Connect data from different sources within your ECM system and maintain a perfect overview of your company’s performance.

Unlock the full power of information in files, documents, or e-mails and get actionable insights from your company’s data all in one place. Connect and maintain a perfect overview of your company's data from different sources within your ECM system or enterprise content management (ECM) system.

The importance of privacy
Documents and data in ECM are precious assets that need to be sufficiently safeguarded. ELO Analytics ensures that users are only able to draw on data for analysis that they have the permissions for. The ELO rights management system provides numerous options for assigning users or groups to roles to make sure that knowledge is only available to authorized persons.

Technology that sets new standards
The underlying technology is based on a high-performance search with sophisticated analytics components that analyze and structure your data in real time and create modern data visualizations. The dashboard interface has been designed with scalability in mind, ensuring that your ECM system has the capacity to handle increasing volumes of documents.

Share insights instantly
ELO Analytics empowers you to respond to questions from colleagues that arise during a meeting or make decisions on the fly.

Custom views
Create different views of your data in a matter of seconds. This allows you to quickly identify issues that preoccupy or ones where the cash discount is about to expire. Generate a view of the contracts due to expire in the month ahead or see which employees have not received any training for a long time.

Intelligible dashboards let you get the hang of complex data in a fraction of a second. This way, you are always completely up to date.

Intelligent dashboards
Intelligible dashboards make sense of complex data in files or documents. Visualizing data creates value. Infographics are a necessary tool for sorting complex data and statistics into an intelligible visual display. Easily create bar charts, line graphs, or pie charts. Calculate individual performance indicators and use tag clouds to visualize the frequency of keywords. Answer questions like “What was my cash flow in the last 12 months?” with a timeline diagram, or “Which types of contract accounted for the greatest share?” with a bar chart, or “How many visitors did not turn up for the tour?” with a pie chart.

Intelligible dashboards make sense of complex data in files or documents. The easy to build dashboard views give you rapid insights into data in files or documents. You can combine and compare different parameters to meet your requirements thanks to a sophisticated rights management concept with group and role functions.

The benefits
> Best-in-class analytics technology
> Intelligible dashboards
> ELO Analytics is an integral component of the ELO ECM Suite. Since it integrates seamlessly with ELO, you can open all the contracts within an ongoing contract file straight from a risk analysis dashboard and initiate a contract termination.

Integrated insight
ELO Analytics is not a separate solution for analyzing data, but seamlessly integrates with business processes and your daily work routine.

Integrated data
Intelligible dashboards make sense of complex data in files or documents. Since it integrates seamlessly with ELO, you can open all the contracts within an ongoing contract file straight from a risk analysis dashboard and initiate a contract termination.

**Your business metrics in one place with ELO Analytics for information management**

ELO Analytics allows you to evaluate and understand your company’s data all in one place. Connect data from different sources within your ECM system and maintain a perfect overview of your company’s performance.

Unlock the full power of information in files, documents, or e-mails and get actionable insights from colleagues that arise during a meeting or make decisions on the fly.

ELO Analytics empowers you to respond to questions from colleagues that arise during a meeting or make decisions on the fly. Since you are able to modify the parameters, you can get meaning to even complex data with just a few clicks, enabling you to monitor key metrics and act quickly when time is of the essence.

**The importance of privacy**
Documents and data in ELO are precious assets that need to be sufficiently safeguarded. ELO Analytics ensures that users are only able to draw on data for analysis that they have the permissions for. The ELO rights management system provides numerous options for assigning users or groups to roles to make sure that knowledge is only available to authorized persons.

**Custom views**
Create different views of your data in a matter of seconds. This allows you to quickly identify invoices that are overdue or invoices where the cash discount is about to expire. Generate a view of the contracts due to expire in the month ahead or see which employees have not received any training for a long time.

Thanks to the simple representation in table form, the easy to build dashboard views give you rapid insights into data in files or documents.

**Intelligible dashboards**
Intelligible dashboards let you get the hang of complex data and statistics into an intelligible visual display. Easily create bar charts, line graphs, or pie charts. Calculate individual performance indicators and use tag clouds to visualize the frequency of keywords. Answer questions like “What was my cash flow in the last 12 months?” with a timeline diagram, or “Which types of contract accounted for the greatest share?” with a bar chart, or “How many visitors did not turn up for the tour?” with a pie chart.

**Visualizing data creates value**
Infographics are a necessary tool for analyzing complex data and statistics into an intelligible visual display. Easily create bar charts, line graphs, or pie charts. Calculate individual performance indicators and use tag clouds to visualize the frequency of keywords. Answer questions like “What was my cash flow in the last 12 months?” with a timeline diagram, or “Which types of contract accounted for the greatest share?” with a bar chart, or “How many visitors did not turn up for the tour?” with a pie chart.

**Dashboard in focus**
Intelligible counterparts let you discover business insights even when you need it for archived invoices or visitors, contracts, or personnel records that are actively managed in ELO. This way, you are always completely up to speed and can drive better business outcomes — a key factor for success in the global marketplace in light of ever-increasing volumes of data.

Your business metrics in one place
with ELO Analytics for information management

ELO Analytics allows you to evaluate and understand your company’s data all in one place. Connect data from different sources within your ECM system and maintain a perfect overview of your company’s performance.

Unlock the full power of information in files, documents, or e-mails and get actionable insights from your company’s data all in one place. Connect and maintain a perfect overview of your company’s data from different sources within your ECM system.

The importance of privacy
Documents and data in ELO are precious assets that need to be sufficiently safeguarded. ELO Analytics ensures that users are only able to draw data on data that they have the permissions for. The ELO rights management system provides numerous options for assigning users or groups to roles to make sure that knowledge is only available to authorized persons.

Share insights instantly
ELO Analytics empowers you to respond to questions from colleagues that arise during a meeting or make decisions on the fly. Since you are able to modify the parameters, you can give meaning to even complex data with just a few clicks, enabling you to monitor key metrics and act quickly when time is of the essence.

The dashboard interface has been designed with scalability in mind, ensuring that your ECM system has the capacity to handle increasing volumes of documents.

Custom views
Create different views of your data in a matter of seconds. This allows you to quickly identify invoices that are due to expire in the month ahead or see which employees have not received any training for a long time.

Thanks to the simple representation in table form, the easy to build dashboard views give you rapid insights into data in files or documents.

Visualizing data creates value
Infographics are a necessary tool for sorting complex data and statistics into an intelligible visual display. Easily create bar charts, line graphs, or pie charts. Calculate individual performance indicators and use tag clouds to visualize the frequency of keywords. Answer questions like “What was my cash flow in the last 12 months?” with a timeline diagram, or “Which types of contract accounted for the greatest share?” with a bar chart, or “How many visitors did not turn up for the tour?” with a pie chart.

Dashboards in focus
Intelligible dashboards let you get the hang of complex data and statistics in an intelligible visual display. Custom views and visualizations to suit your needs. The dashboard also provides you with advanced filtering and navigation options, enabling you to discover business insights even when you have millions of documents.

Intelligible dashboards
Intelligible dashboards provide you with advanced filtering and navigation options, enabling you to discover business insights even when you have millions of documents.

The benefits
ELO Analytics is an integral component of the ELO ECM Suite. Since it integrates seamlessly with ELO, you can open all the contracts within an ongoing contract file straight from a risk analysis dashboard and initiate a contract termination.

ELO Analytics is not a separate solution for analyzing data, but seamlessly integrates with business processes and your daily work routine. This eliminates the need to set up external BI data bases. Benefit from best-in-class analytics capabilities for all types of data, no matter whether you need it for archived invoices or visitors, contracts, or personnel records that are actively managed in ELO. This way, you are always completely up to speed and can drive better business outcomes — a key factor for success in the global marketplace in the light of ever-increasing volumes of data.

Integrating with other systems
ELO Analytics integrates with established BI data bases and allows you to import a separate analysis database.
The benefits

Custom views
- Easy-to-read graphic representation of data
- Fast data analysis for every use case
- Create custom dashboards

Meaningful visualizations
- Visualize data with the help of diagrams, tag clouds, data tables, or metrics
- Easy data aggregation
- Ability to interpret statistics for detailed analyses
- Control over your custom views

Custom dashboards
- Combine visualizations and statistical data
- Filter options to narrow down the data shown
- Real-time data thanks to the automatic dashboard refresh
- High performance — have the data you need in a matter of seconds
