

 ELO eRecords

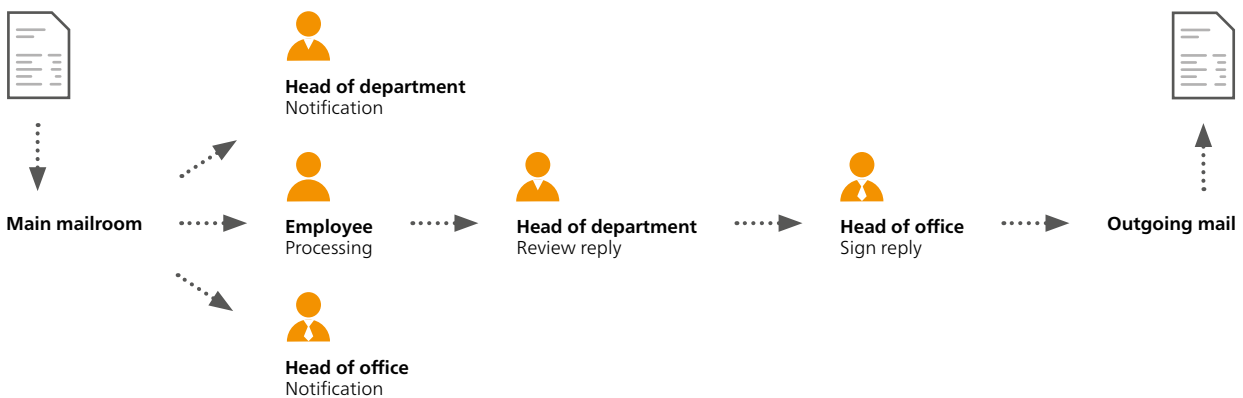

# Digitizing records management

AT THE  OF YOUR BUSINESS

[www.elo.com](http://www.elo.com)

# E-records are the future

The **ELO eRecords** solution enables flexible, compliant records management. With powerful and intelligent search capabilities, it covers all tasks on every administrative level, from virtual mailrooms to records management, file and case processing, and case-related e-mail management. Inefficient, paper-based processes are a thing of the past with **ELO eRecords**.

## Map administrative processes digitally

The powerful **ELO workflow** component maps routines within the e-record. Signing processes, reminders, and interagency collaboration are controlled and visualized with just a few clicks based on the department or case.

**ELO eRecords** features a streamlined and user-friendly interface aligned with current trends.

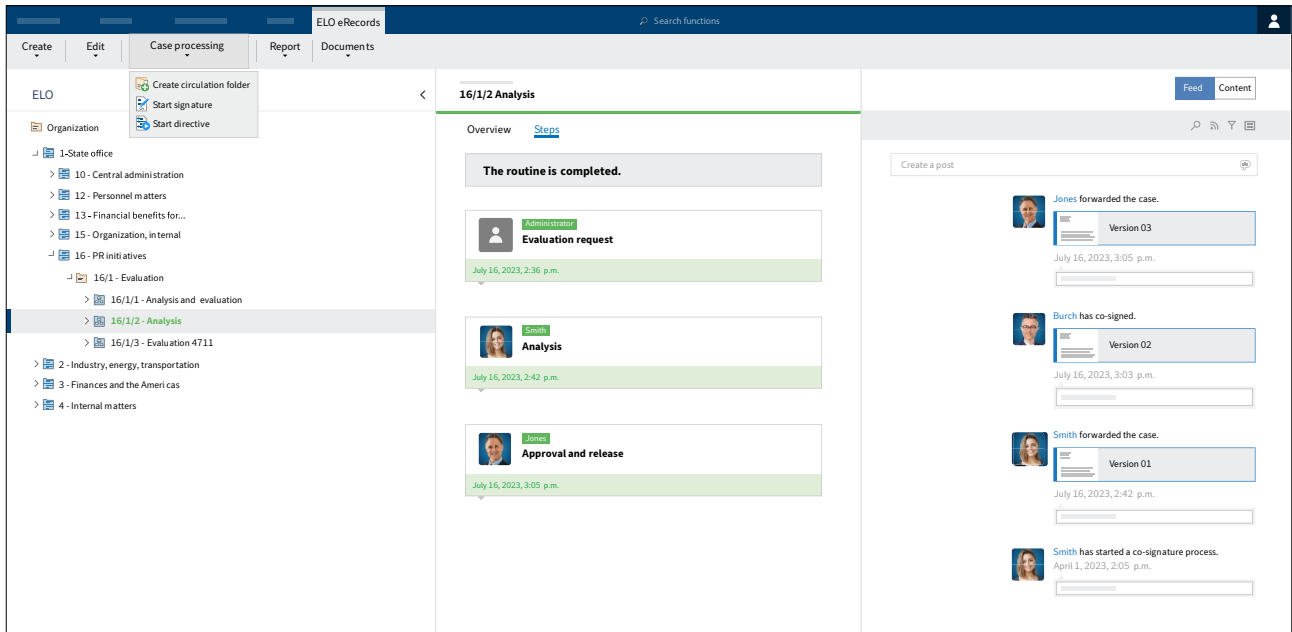

## Multi-client strategy

While different ELO clients are available for different applications, the interfaces feature an end-to-end operating concept that ensures user acceptance over time.

## The benefits

- > Seamless integration in modern administrative workplaces
- > Efficient, structured case processing
- > End-to-end digital routines, including templates
- > Transparent signing and directive processes
- > Structured dashboard with reminder and deadline functions
- > Feed for streamlined communication with comment, post, and subscribe functions for records, files, and cases
- > Automatic, structured reporting functions with various views
- > Integration with a wide range of administrative processes

# Digital administration with ELO eRecords

**Structure**  
Simple navigation and customizable menu bars ensure transparency.

**Cases**  
Dynamic views of routines or forms allow for secure, targeted digital processes.

**Collaboration**  
Comments on files or cases with a subscribe function. All information remains transparent throughout its entire lifecycle.

## Seamless integration

**ELO eRecords** is platform-independent and can be integrated with industry leading storage systems. Access is authenticated via a high-performance internal user manager or directly through the operating system and the defined user identity.

The agency-specific version of the standard product includes all highlights of **ELO ECM Suite**, enabling operation as an on-premise, cloud, or hybrid solution.

## Compliance

ELO solutions help offices address challenges such as the requirements of various data protection regulations, laws, and acts.

## End-to-end digitalization with ELO

A smooth flow of information and options for collaboration are crucial when it comes to the digital workplace – regardless of location or device. ELO meets the needs of today’s workforce with mobile solutions for a variety of devices. Virtual project rooms can also be created to give external project stakeholders access to cases.

But that’s not all: From invoice management with electronic invoices, to budget planning, all the way to financial management, ELO has efficient products to digitalize all kinds of business processes. These include software solutions for personnel files, candidate management, meeting management, knowledge management, and many more.

# Additional departmental solutions

Companies looking to digitalize end-to-end operations face numerous challenges. ELO enables businesses to meet these challenges with standardized solutions that you can implement across different departments – quickly and easily. Every day, employees in all areas of your company can benefit from our best practice-based ECM solutions – from the front desk to accounting to HR.
